

SBN BLACK 980F **(HIGH PIGMENT CONTENTS RESIN FREE NANO INK)**

SBN BLACK 980F is high pigment contents nano Ink.
It is the nano pigment base for industrial paint.

1. Physical Properties

Properties	Result
Appearance	BLACK Liquid
Color Index No	BLACK
Viscosity (CPS, 25°C)	100 Under
Pigment Solid Contents (%)	10 ± 1
Dispersion Particle Size (µm)	0.5 Under
Solvent	MIBK,MEK

2. Product Properties

- SBN BLACK 980F is low viscosity high concentrated pigment dispersion Ink.
- SBN BLACK 980F is hologen-free type high concentrated pigment nano Ink.
- SBN BLACK 980F is excellent durability.
- SBN BLACK 980F is excellent compatibility with various resin.
- SBN BLACK 980F is excellent transparency.

3. Application

- SBN BLACK 980F is main application is industrial paint and Ink.
- Coating Method : Micro Gravure Coating and Automatic Spary Coating.

4. Storage conditions

- This product must be kept in shade and cool area.
- This product is stable for 6 months when stored at 20°C with unopened original container.
- This product observe in flame because contain organic solvent.
